WOODS & WATER

BY ANNA MANGUM

Maine has long been an escape for city-dwellers wanting a breath of fresh air. From the mountains to the lakes to the sea, we rounded up hues of pure nostalgia from Maine's nature-scapes for the 2024 Stylish Getaways Color Story.

Find Ann Craven's Pink Moon paintings casting ripples over midnight water (as seen on the cover of our 2023 Art Issue), woven textures in both baskets and rugs, and more charming decor below.

Finnish fashion designer Samu-Jussi Koski's Sera Helsinki rug was inspired by the minimalist E-1027 house, designed by architect Eileen Gray in 1926.

< The **Sera Helsinki** rugs support and empower single mothers and people with disabilities in Ethiopia. Combining modern Finnish design with traditional Ethiopian craftsmanship, each rug is composed of blocks of color and divided by textural fringe to make an architectural statement. studionordhaven.shop

^ **Ann Craven's Pink Moons** make a splash. These paintings evoke lodge living in their peaceful reflections of moon on the water. Bringing the outdoors in is always a staple of second homes and camps in Maine.

^ **Swans Island's** Grace Winter Blankets are handwoven with a double-layer construction of cozy 100-percent Corriedale wool sourced from New England farms and spun in Vermont. These thick blankets are perfect for a nippy evening. swansislandcompany.com

^ The **Swans Island** Whitecaps Throw pulls inspiration from the movement of windswept waters in Penobscot Bay. Each blanket is made by artisan weavers who add every whitecap by hand, thus each product is unique. swansislandcompany.com

< The **Windsor** Sackback Armchair with Comb in cinnamon finish is made with usability, durability, and functionality in mind. Meant to last for generations, this piece honors Maine's ethos of quality over quantity. windsorchair.com
